Women have heart attacks too... ARE YOU AT RISK???

"Everything you would like to know about heart disease in women and never dared to ask"

This free event is open to everyone

Come and meet our panel of experts: Drs Louise Pilote, Stella Daskalopoulou and Kaberi Dasgupta from the McGill University Health Center. These attending physicians and scientific researchers will discuss the risk factors for heart disease in women such as hypertension, smoking, high cholesterol and diabetes. They will also review the symptoms of a heart attack.

This café is presented by the Canadian Institutes of Health Research
Refreshments will be provided
Attendance is limited to 60 people
